### Installation Guide - Non-Keyed plates: Knob

**IMPORTANT!: Knob location on the sideplate (Top, middle, bottom) varies depending on style.**
**Determine proper orientation BEFORE drilling holes.**

<td>6.</td>
<td>Tighten Knob</td>
</tr>
</tbody>
</table>

### 2. Door Prep

1. Determine knob location & plate orientation
2. Prior to drilling holes, align side plate using Edge Guide (provided).

### 3. Install latch

- **For Privacy function:** Threaded hole for the privacy pin must face the interior side of the door.
- **Dummy plate:**
  1. Align Mounting plate (sideplate not shown for clarity)
  2. Install Mounting Plate & Adjust for level
  3. Install Sideplate

### 4. Mount Inside Trim Plate

**Privacy Function**

- **Inside**

### 5. Mount Outside Trim Plate

**Optional Thru Bolts**

- **Outside**

Thru bolts (provided) may be used on hollow doors instead of wood screws (also provided).

Make sure the release hole lines up with the privacy pin.
