1. Determine lever location & plate orientation

2. Door Prep

Prior to drilling holes, align side plate using Edge Guide (provided).

3. Install latch

For Privacy function: Threaded hole for the privacy pin must face the interior side of the door.

4. Mount Inside Trim Plate

Plates and lever vary depending on style

Privacy Function

Optional Thru Bolts

5. Mount Outside Trim Plate

Thru bolts (provided) may be used on hollow doors instead of wood screws (also provided).

6. Tighten Lever

After lock has been installed tighten set screw with Allen Wrench.

Make sure the release hole lines up with the privacy pin.
