Make a statement, your statement.

Emtek is dedicated to helping bring your personal style to life. Door hardware is more than a way to open, close, and secure a space. To us, it is an integral part of a room’s design theme. It is an extension of your personal style and we want it to do more than blend in. Door hardware should make a statement, your statement.

Emtek’s products are a cut above in terms of craftsmanship and design. Each order is custom assembled in our Southern California facility. There is no predetermined combination of levers, trims and finishes; we let you mix and match according to your own taste. Emtek custom assembled locks are typically shipped within 2 - 3 business days to decorative hardware dealers throughout North America. Most dealers receive orders within five business days. We make your order how you want it and we get it to you quickly.

Founded in 1981, Emtek has decades of experience creating door hardware. We keep our finger on the pulse of the market and regularly release new designs. Our style is current, but we never forget about the classics. From traditional to contemporary, transitional, or rustic, we have hardware to match every style.

In this brochure, you will find examples of Emtek’s extensive range of products. Everything you see can be customized with numerous options for levers, trims, and finishes. To see Emtek’s complete product offering, visit our website at emtek.com or your local Emtek dealer. Emtek’s website also includes valuable tools like Product Selector, which will let you visualize different combinations of products.

Emtek is a part of ASSA ABLOY, the global leader in door opening solutions.

Bronze Patina is a living finish that will gracefully age, revealing the underlying bronze over time. Because of this characteristic, no finish warranty is offered on bronze patina products.

Unlacquered Brass (US3NL) is a custom, made-to-order finish. It is available with an upcharge, per item and requires an additional 2-3 day lead time. This living finish will gracefully age and evolve in appearance over time. Because of this characteristic, no finish warranty is offered on unlacquered brass products.
