**Products with Staying Power  
Accurate Project Estimating  
KBIS 2018 in Review**

THE OFFICIAL PUBLICATION OF **KBIS**

## What's Hot

# 10

**10. TOP KNOBS** has expanded its Honey Bronze and Ash Gray finishes to 17 cabinet hardware series in five collections. Honey Bronze, shown here, puts a chic twist on classic bronze and brass finishes, and Ash Gray is a warm alternative to traditional gray with its low-reflecting shine.

# 11

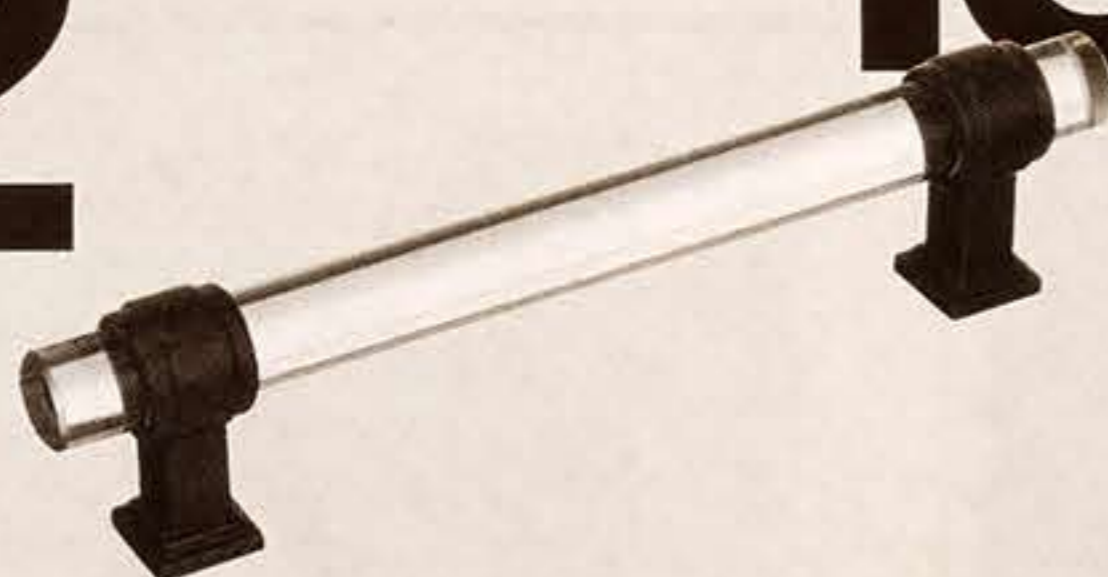

**11. EMTEK's** new edge pulls offer a unique shape: a soft square profile that is offered in popular finishes, including satin brass, flat black, oil-rubbed bronze, polished chrome and polished nickel. They bolt to the interior panel of a cabinet or drawer, and they offer a contemporary, minimalist aesthetic with a comfortable grip.

# 12

# 13

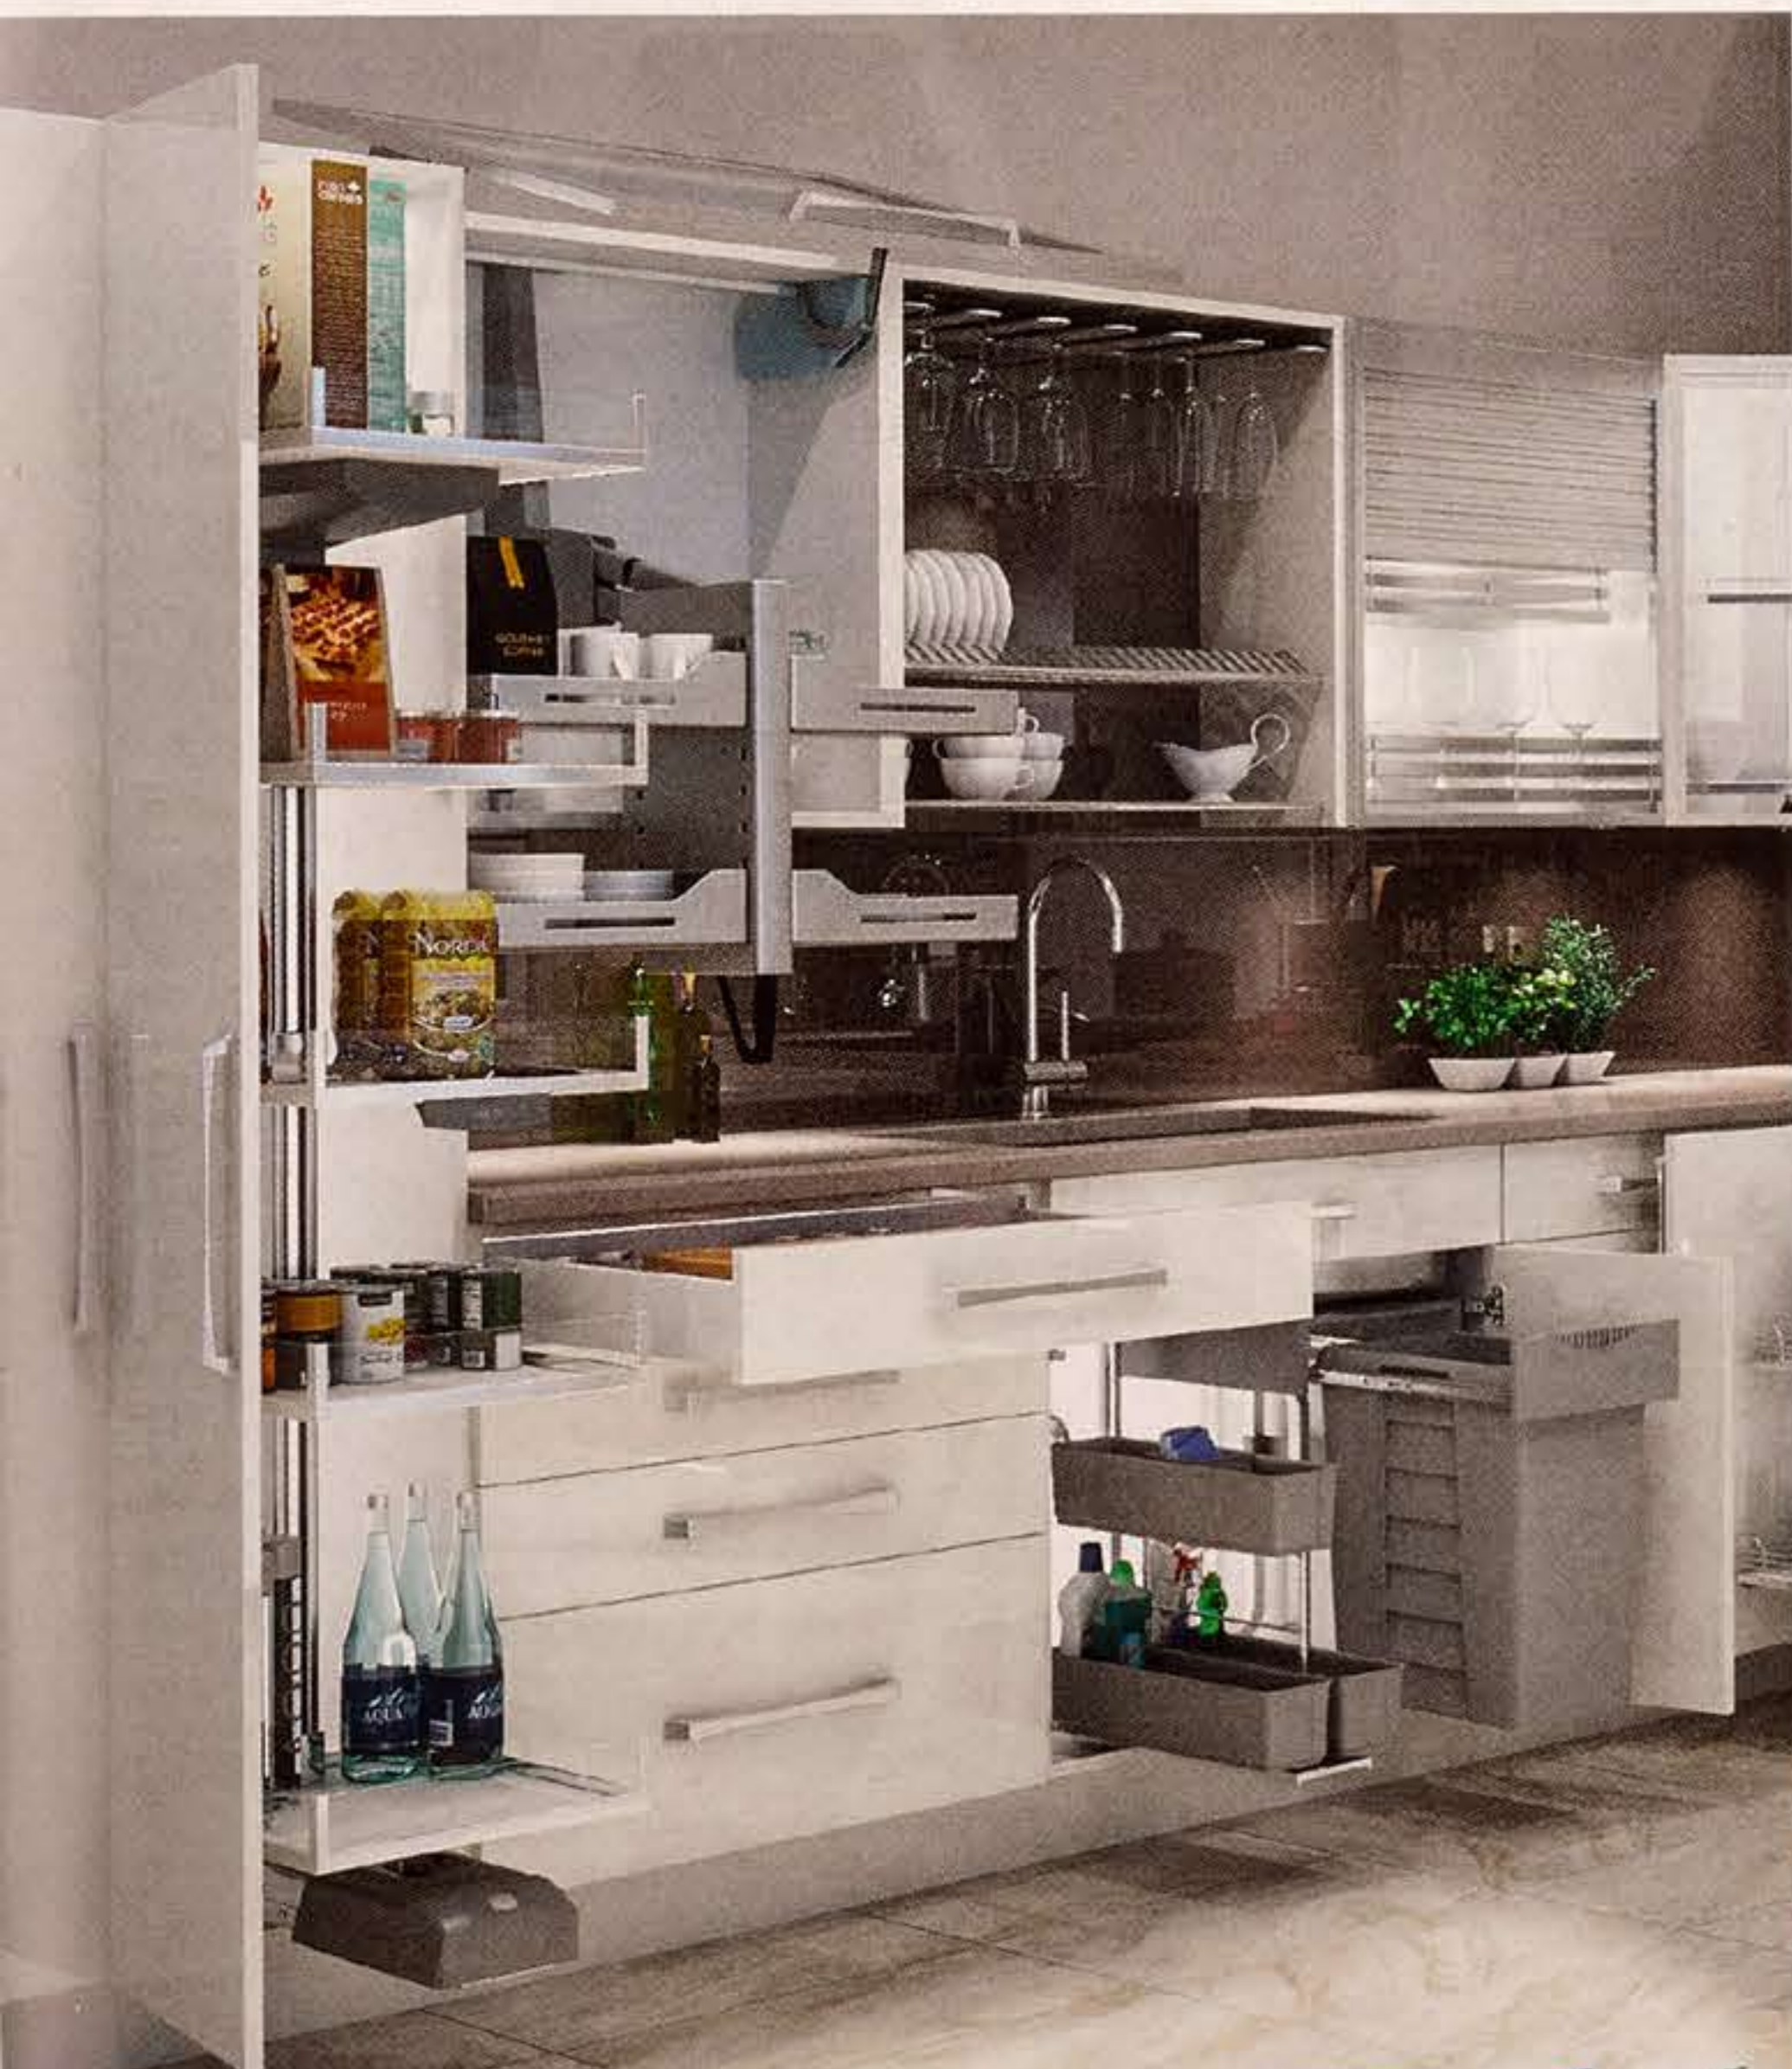

**12.** The Industrial Farmhouse suites of hardware from **LIBERTY HARDWARE** have the quintessential old-meets-new look. In textured finishes of distressed iron, statuary bronze and soft iron with bold modern lines, subtle indentations and raised elements, the raw aesthetic of the industrial farmhouse trend also infuses warmth into the cabinetry.

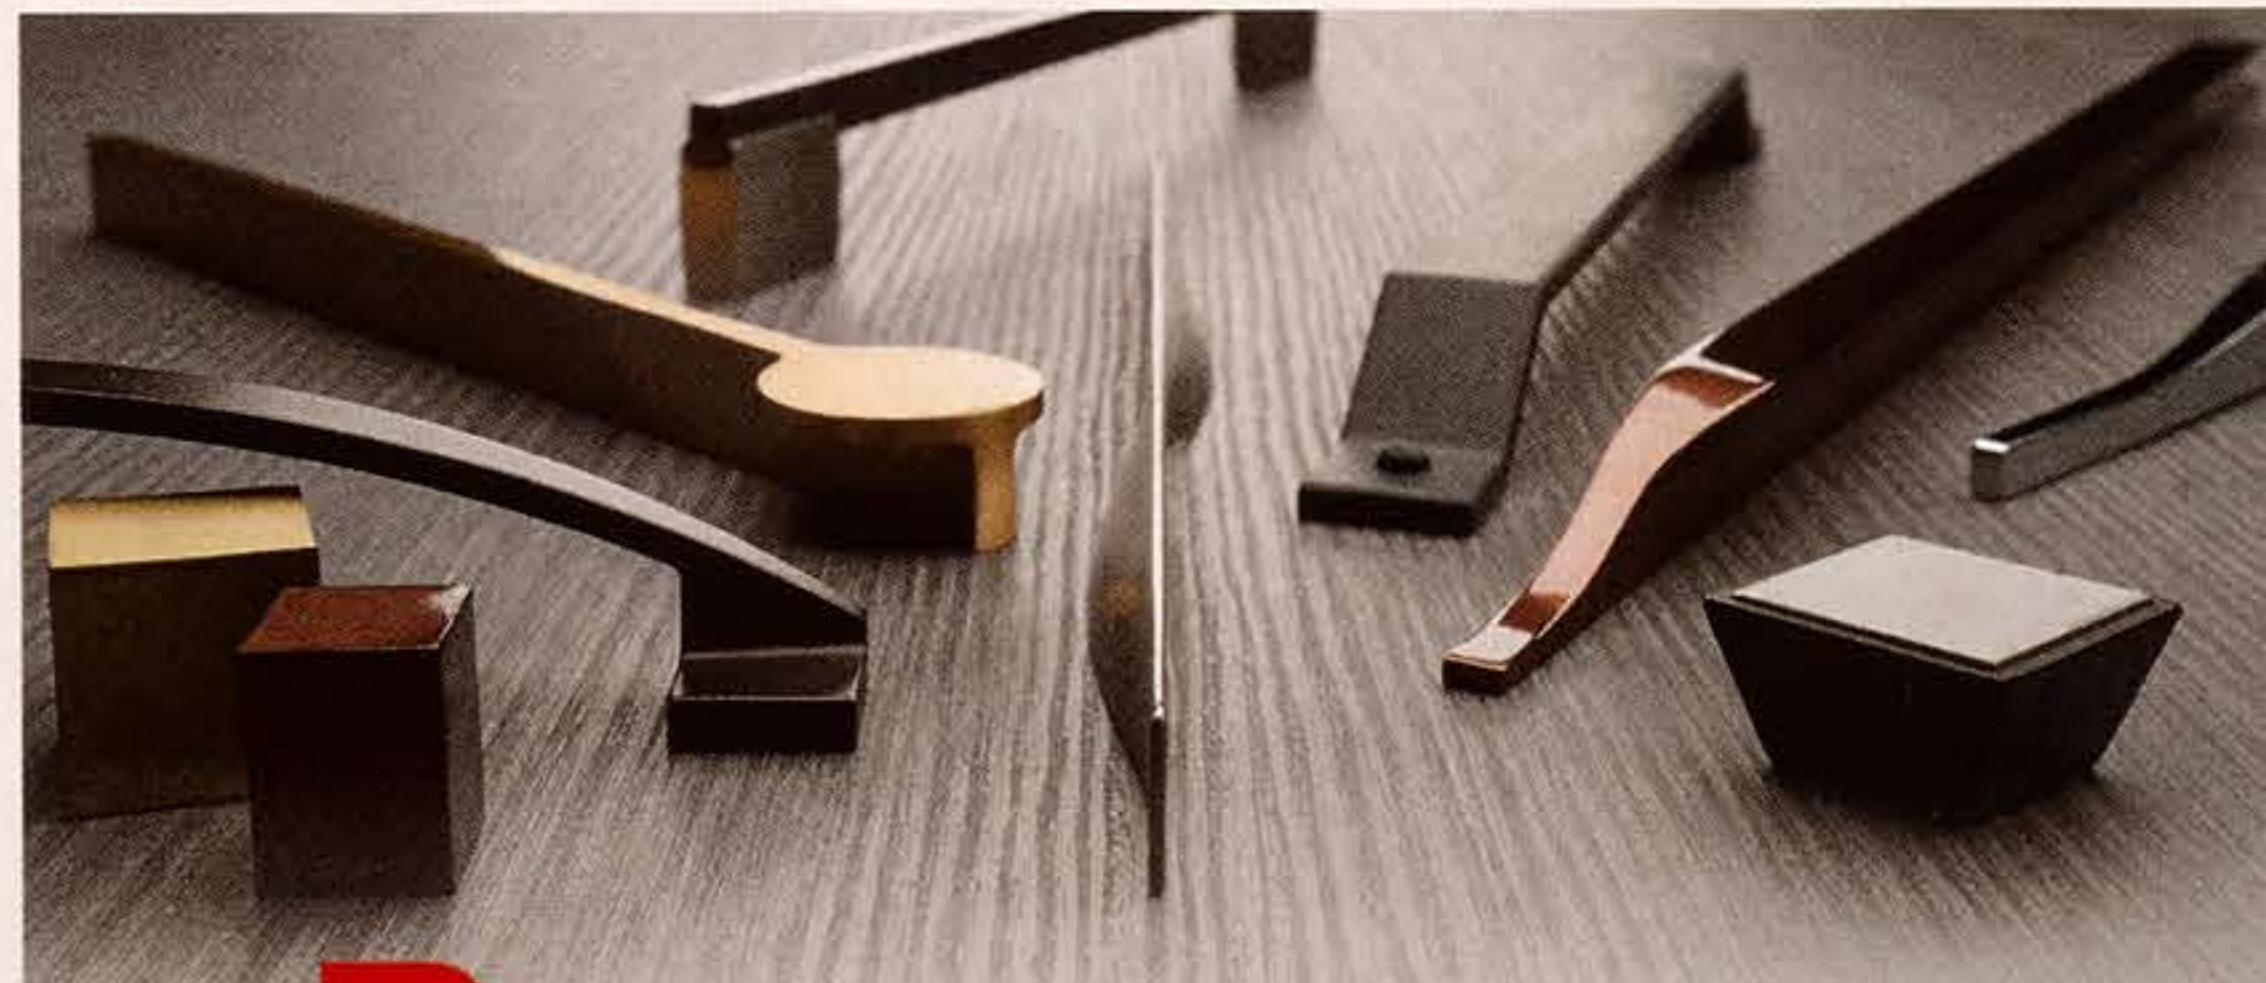

# 14

**13. AMEROCK** is expanding its Glacio Collection with pulls and a new black-bronze finish. The pulls complement the collection's existing knobs with metallic-finished posts that wrap around a crystal-clear rod, and they are also available in finishes like golden champagne, oil-rubbed bronze and stainless steel.

**14.** Part of **PULLCAST's** Ocean Collection of jewelry-like hardware made in Portugal, Natica is available in polished brass (shown), aged brass and brushed brass finishes and in four different sizes of knobs and pulls.

Kitchen solutions

**Richelieu** **DISTINCTIVE**  
*in every detail*
